

Type1Screen offers free screening for the early stages of type 1 diabetes. This is available to Australian and New Zealand residents aged over 2 years who have a relative with the condition.

People can perform a finger prick screen at home. If they test positive they are monitored closely. If they progress to type 1 diabetes, we help them start insulin to avoid serious illness.

Type1Screen also offers opportunities to join clinical trials and other type 1 diabetes trials.

**AN AUSTRALIAN AND NEW ZEALAND
INITIATIVE AIMING TO SEE TYPE ONE
BECOME TYPE NONE**

Supported by JDRF Australia and Melbourne Health

Eligibility criteria...

Aged over 2 years

AND

Live in Australia or New Zealand

AND

Have a relative with type 1 diabetes
